## Life during COVID:

### What to do when you are stuck at home?

This session will explore the wide variety of activities that BI Survivors (and others) can engage in while we are staying safe at home. We will have the opportunity to hear Survivors share their experiences and we encourage you to share your ideas with others. This unusual time can be an uplifting growth opportunity if we are thoughtful and creative about how we spend our time!

Registration is at no cost to participants and is funded by grants and donations.

## The 2020 BI Survivor Series

### Survivor Series Hosts for November

**Gayann Brandenburg, M.S., President of the Brain Injury Hope Foundation and Managing Partner, CTAT, LLC**

Gayann has worked in a wide variety of jobs in the disability field for over 40 years. Her passion is creating employment opportunities for people with disabilities and supporting people with disabilities to become more independent.

**Joanne Cohen, M.A., CBIS/Vice-President of the Brain Injury Hope Foundation and Managing Partner, CTAT, LLC**

Joanne was in a car accident in 1992 while vacationing in the Bahamas. Her life was forever changed. She was unable to walk and a year later she discovered many of her personal challenges were due to a traumatic brain injury (TBI). Joanne has overcome many obstacles and has exceeded her medical diagnosis, leading to a remarkable and inspirational story and recovery, then and again in 2014 and 2019.

Joanne published her first book in June, 2019, *Getting Hit, Getting Up, Moving Beyond: My Journey Through Brain Injury*, a compelling story of her challenges as she faced sequential “hits” and how she handled adversity with resilience time after time. She depicts the path to “moving beyond” and create a full life that includes tools to do so, many that can now be used as we are all “hit” with the Covid-19 crisis. Her book is available at Amazon.com or BarnesandNoble.com
